| <b>Description</b>         | The Logistician / Freight Forwarder manages the movement of goods from one location to another on behalf of a customer. They generally do this on a commercial basis and within a strong legal and financial framework. The modes of transport may include road, rail, air or sea, or a combination of these. The Logistician/Freight Forwarder requires specific expertise to ensure that all necessary documentation conforms to the requirements of customs, insurance and the law (IATA Conventions, Maritime Law, ICC Codes, and any international regulations governing international transportation).                      |
| <b>Progression Pathway</b> | <p>This entry should refer to one or more of the following: Professional progression: access to related qualification(s) at the next NSQF level: Exim Manager</p> <p>Academic progression: access to related qualification(s) at the next NSQF level:</p> <p>For a Graduate - Post-Graduation is the next stage of progression</p> <p>For a Diploma – Graduation is the next stage of progression</p> <p>For a Class XII – Diploma or Graduation is the next stage of progression</p> <p>For a Class X - Candidate to clear Class XII through open school and proceed further to Diploma or Graduate and then to Postgraduate</p> |
| <b>Qualification</b>       | Completed 1st year of UG (UG Certificate),12th grade Pass and Pursuing/Completed 3-year diploma (after 10th),10th grade pass                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
